

Productivity Improvement Event & Plant Tour

Take a systematic approach to improvement & see what you can achieve in 90 days
 Hosted by Plats Du Chef - Ontario Canada

Come see how Plats Du Chef achieved 19.6% productivity uplifts within 90 Days

Mobile and social networks have totally transformed consumer society. Now they enable a revolution in manufacturing performance by firing up workforce engagement to perform better within days. Plats Du Chef saw an increase in productivity of 19.6% in under 90 days by deploying iPads, rich with real-time intelligence, to harness latent workforce productivity.

APR 11TH

"Redzone has played a significant role in the efficiency gains we have achieved at Plats du Chef. It gives us the opportunity to see in real time what is happening on the production floor and the result of every little change we do on the line!"

Anais Belda CI Manager - Plats Du Chef

Continuous Improvement Panel Discussion

Bring your questions to the panel and hear how your peers are leading the way in Continuous Improvement.

Redzone Community Panel

Plats du Chef will be joined by executives from Chudleighs and Ya Ya. Bring your CI challenges and hear how other F&B plants are transforming their operations with next generation technology; combined with workforce coaching.

Panel Discussion Topics Include:

- Continuous Improvement: where to start?
- How to make Continuous Improvement stick
- How to win the hearts and minds of the workforce
- The role of technology in Continuous Improvement
- Unlocking discretionary effort
- What returns to expect: 90 days, 1 year
- Food Industry benchmarks
- Your specific questions/comments

Panelists

Chudelighs
YaYa

Who Should Attend

Owners, CEOs, VP Ops &
Continuous Improvement Executives

Location

610 Oster Lane
Concord, Ontario L4K 2B9 Canada

“Using the data from Redzone allows us to work more on recurring problems instead of the ‘flavor of the month’. Photos can be taken and actions can begin to be set in motion in all departments which is invaluable to us.”

Jean Francois Laurin - VP of Operations
