

CPG Continuous Improvement Event & Plant Tour

Make Continuous Improvement a reality & see what YOU can achieve in 90 days
Hosted by Mana Products - Long Island City

Come see how Mana Products achieved 38% productivity uplifts within 90 Days

Mobile and social networks have totally transformed consumer society. Now they enable a revolution in manufacturing performance by firing up workforce engagement to perform better within days.

Mana Products saw an increase in productivity of 38% in 90 days by deploying iPads, rich with real-time intelligence, to harness latent workforce productivity.

MANA

“

Mana Products - Long Island City

“We always knew there was opportunity in our plant, we just didn’t have the right systems in place to find it and act on it. Redzone has now given us that and we are witnessing huge improvements since we started this effort.”

Bob Jaegly, SVP Operations

Continuous Improvement Panel Discussion

Bring your questions to the panel and hear how your peers are leading the way in Continuous Improvement.

Panelists Include:

Mana will be joined by executives from Baldwin Richardson Foods, UTZ Quality Foods. Bring your CI challenges and hear how other F&B and CPG plants are transforming their operations with next generation technology; combined with workforce coaching.

Panel Discussion Topics Include:

- Continuous Improvement: where to start?
- How to make Continuous Improvement Stick
- How to win the hearts and minds of the workforce
- The role of technology in Continuous Improvement
- Unlocking discretionary effort
- What returns to expect: 90 days, 1 year
- CPG Industry benchmarks
- Your specific questions/comments
