

Continuous Improvement Event & Plant Tour

Make Continuous Improvement a reality & see what YOU can achieve in 90 days
Hosted by Nature's Sunshine Products - Spanish Fork, UT

Come see how Nature's Sunshine achieved DOUBLE DIGIT productivity uplifts within 90 Days

Mobile and social networks have totally transformed consumer society. Now they enable a revolution in manufacturing performance by firing up workforce engagement to perform better within days.

Nature's Sunshine saw an increase in productivity of 12% in under 90 days by deploying iPads, rich with real-time intelligence, to harness latent workforce productivity.

NATURE'S SUNSHINE®

Nature's Sunshine Products - Spanish Fork, UT

"Redzone has been a great addition to our plant. Having the data at our fingertips has changed the way we run business. The staff is now focused on 'real data' and not always running the business from tribal knowledge."

Dustin Simons, Director of Manufacturing

Continuous Improvement Panel Discussion

Bring your questions to the panel and hear how your peers are leading the way in Continuous Improvement.

Redzone Community Panel

Nature's Sunshine will be joined by executives from other local plants also using Redzone and part of our community - more information on the panel to come. Bring your CI challenges and hear how other F&B and CPG plants are transforming their operations with next generation technology; combined with workforce coaching.

Panel Discussion Topics Include:

- Continuous Improvement: where to start?
- How to make Continuous Improvement Stick
- How to win the hearts and minds of the workforce
- The role of technology in Continuous Improvement
- Unlocking discretionary effort
- What returns to expect: 90 days, 1 year
- Food Industry benchmarks
- Your specific questions/comments
