

OPPORTUNITY BLITZ

- Reached a performance plateau?
- Surrounded by waste and inefficiencies?
- Continuous Improvement initiatives become sporadic?
- Struggling to maintain best practices?
- Performance improvements beginning to slow down?

ENGAGE IN THE REDZONE PROGRAM & TRANSFORM PERFORMANCE IN UNDER 90 DAYS

REDZONE is a Continuous Improvement System that makes great performance stick. Working in a social framework it is an action management and communication tool to drive performance improvement. The system merges online Kaizen events with a cloud based secure social technology to lift performance.

A structured change program combined with the rapid deployment of Redzone will provide real time factory intelligence, instigate rapid kaizen initiatives and arm your teams with new working practices that will transform performance within 2 weeks of project commencement. They will have access to the best coaches in your industry with a track record of delivering rapid improvements through industry standard improvement tools and techniques.

DISCOVER YOUR SCOPE FOR IMPROVEMENT WITH THE OPPORTUNITY BLITZ

- ✓ 1.5 day assessment of your plant & opportunity: benchmark current performance, assess CI readiness and develop kaizen roadmap
- ✓ Find out your potential for the first 90 days and beyond
- ✓ Identify the full scope of your performance opportunity over 12-36 months
- ✓ Benchmark against your peers in the industry that have already undergone the Redzone program
- ✓ Assess your eligibility to partake in the Redzone Reference Program (A 90-day transformation program with NO software or configuration costs!)
- ✓ Experience a “day in the life” of Redzone software configured to your plant

TYPICAL BENEFITS:

- ✓ \$63k Average saving per Kaizen
- ✓ 5% efficiency improvement within 90 days
- ✓ \$500k annualized savings

Using intelligence collected during the blitz the 1.5 day activity establishes specific performance improvement targets, introduces common factory metrics such as Overall Equipment Effectiveness (OEE), and develops a Kaizen road map to eliminate the root causes of the most taxing, recurring problems.

The Redzone Opportunity Blitz was a great way to determine if we were culturally ready to embark on this program, it established the financial goals for the program through the development of our Kaizen roadmap & got the team excited about taking Continuous Improvement to the next level.

- Floyd Ostrowski, VP Operations, Roots Candles ””

REDZONE
OPPORTUNITY BLITZ

WHAT HAPPENS ON SITE?

Using a tried and tested process with an experienced Redzone team, the Opportunity Blitz rapidly works through the financial opportunities, the major recommended kaizen activities and a playback of how the Redzone would be mapped to your organization. All this over 1.5 days and only a 2 hour executive level resource commitment.

We're delighted at the pace of change that Redzone has delivered. Having experienced other MES systems, I was impressed by the speed of the deployment and how quickly the operators and supervisors have taken to using Redzone. We have seen our teams immediately take advantage of the real-time data visibility and it's driving a quicker response to issues.

- Kevin Haslebacher, EVP Operations, Amy's Kitchen.
