

REDZONE

Come and see us at Pack Expo in Las Vegas Sept 23 - 25

If you are interested in improving productivity & Food Safety, impacting the culture of your operations and lowering operational costs come meet us while you're at Pack Expo.

Reasons to stop by our booth - Upper South #7635

1. Find out how the average Redzone customer:

- sees a **DOUBLE DIGIT** productivity improvement in 90 days
- has a more engaged workforce able to contribute their ideas
- removed paper from the shop floor making everyone's life easier
- can trust their Quality & Food Safety is assured and integrated into the operator's role
 - has a happier workforce likely to be retained and attracts others
- sees a continuous improvement mentality become systematic in their workforce

2. Compare yourselves against other manufacturers

We all want to know how our peers and competitors are doing and what results they're achieving and how. Compare yourselves against other food, beverage and CPG manufacturers and see how they've improved their plant wide efficiency.

3. Meet our Redzone Community of Customers

We've dedicated a large portion of our booth to our customers as we'll be hosting our annual Community Awards Dinner in conjunction with Pack Expo. If you are interested in being introduced to other food, beverage and CPG customers in the Redzone Community let us know and we'll make the introductions. You can find out what their productivity and QA challenges were and how they overcame them.

ATTEND OUR INNOVATION STAGE DISCUSSION AT PACK EXPO 1:00pm September 23

Join Redzone Production Systems and members of our US Community as we host a panel discussion analyzing trends of 400+ Food Companies making a 'leap' in productivity and Food Safety.

2019 Benchmark Report

Read the 'evidence' rather than 'marketing claims' in our Productivity Benchmark Study. This White Paper summarizes the results of a controlled study which included 400 Food & Beverage and CPG plants in North America. The study tested the effectiveness of a new solution to the decades-old problem of introducing and making lean production techniques stick and deliver actual financial results to the bottom line.

Request a copy of our Benchmark Report [HERE](#).

Productivity & Food Safety Events

We hold regular Productivity & Food Safety events at a variety of Food, Beverage and CPG plants around the country. You'll get to meet other companies like yours, hear their success stories and take part in a panel discussion with several different companies who have all embarked on their Continuous Improvement journey with successful results.

If you would like to attend one of these events or be kept up-to-date with their locations please e-mail us by clicking here on info@rzsoftware.com
