## Get productivity NOW with the Redzone Digital Production System

February 12th-13th 2020 | Santa Clara Convention Center

**Results happen when OEE is managed NOT just measured. Results happen when people take action and respond real time. Redzone is built to make that happen from day one.**

We leverage easy to use digital technology and industry best practices to drive positive culture change and sustainable productivity improvements in food and beverage plants. By developing the skills & structure of the workforce; we provide the framework to engage front line employees in identifying and solving operational problems. Redzone facilitates communication throughout the organization, aligning departments in producing safe, quality product with maximum effectiveness.
