

Get in the red zone at Pack Expo, Las Vegas, September 27 - 29

REDZONE

Join other food, beverage and CPG manufacturers who are attacking the red zone of opportunity and getting their plants in scoring position to put points on the board!

Get off the sideline and get in the game at booth #7644 Upper South Hall
Register for Pack Expo FREE with Redzone code 62H64

Find out how the average Redzone customer:

- experiences 22% productivity improvements in their first 90 days
- reduces regrettable churn by almost 100%
- eliminates paper-based processes resulting in real-time data all the time
- transforms quality and food safety from reactive to proactive to become 'audit-ready' all the time
- creates a culture of shop-floor-driven continuous improvement that continues to improve productivity at 3-4% per year

Benchmark yourselves against other manufacturers

Learn how your peers and competitors across the industry are leveraging 'The Redzone Way' to transform their businesses to thrive in the new world of increased demand in a reduced talent pool. Compare yourselves against other mid-sized food, beverage and CPG manufacturers and see how they've improved their plant-wide efficiency.

Meet our Redzone Community of customers

We've dedicated a large portion of our booth for you to speak with current customers to learn more about Redzone straight from 'the horse's mouth'. We'll be happy to introduce you to other food, beverage and CPG customers in the Redzone Community who are similar in size and market segment for the most relevant networking you'll experience at the expo. Ask them the hard questions for the unvarnished truth about their Redzone experience.

Innovation Stage 1

Central Hall, 1pm Mon, Sept 27

Join Redzone, and a panel of our customers, as we show you how the lives of over 350,000 frontline workers in over 700 food, beverage and CPG plants have been impacted in a positive way. We'll discuss their successes and the trends identified in our 2021 Productivity Benchmark Report.

Panelists:

Are you winning or losing the 'labor shortage' game?

Upper South Hall, 12pm Tues, Sept 28

No matter what size food & beverage manufacturer you are, you are facing a critical worker shortage and it is having an impact on both your top and bottom line! \$500+ sign on bonuses aren't working; your older workers are retiring, and you're now competing for workers with the likes of Amazon and McDonalds!

Join us to hear how companies like McCormicks, Chef Shamy and Ocean Spray are solving these issues... in real time.
